ACTIVE® Ant Spray

DIRECTIONS FOR USE

Use only as directed.

SHAKE WELL BEFORE USE.

Spray directly onto ants for instant effect. Spray into cracks, holes and other places where insects crawl or hide. Apply behind stoves, refrigerators, sinks and around other food storage areas.

ANTS:

Treat nest entrances and along trails and places where they enter the premises.

COCKROACHES:

Threat underside of shelves, drawers and along skirting boards. Cockroaches will become hyperactive before death.

FLEAS:

Spray floors, skirting, carpets and pets bedding.

BEDBUGS:

Spray walls, mattresses, bed frames and inside of cupboards.

FISH MOTHS:

Spray book shelves, inside cupboards and other harbourages.

CRICKETS:

Treat nest entrances and areas of entry into premises.

Wefco ACTIVE® ANT SPRAY leaves a residual deposit, which will control ants, cockroaches, crickets, fleas, bedbugs and fish moths. The length of the residual effect depends on the type of surface treated. When applied outside the house, climatic conditions may influence the results. Retreat when necessary.

TO OPERATE CHILD RESISTANT TRIGGER

Depress button on the top of the shroud and turn nozzle anti clockwise from **STOP** position whilst adjusting desired spray pattern. Reset the security mechanism by turning nozzle clockwise until button clicks into original **STOP** setting.

The WEFCO ACTIVE product range with child resistant trigger mechanism and ratchet locking system helps prevent accidental discharge from the container. The lock nut fits securely onto the bottle's neck with the ratchet finish preventing it from being unscrewed.

WARNINGS:

For use only as a surface spray. Keep out of reach of children and uninformed persons and animals. Toxic to bees, animals and fish. Do not spray onto food, animals, plants or surfaces which come directly into contact with food. Store away from foodstuffs. May damage plastic material, highly polished or other sensitive surfaces.

PRECAUTIONS:

Specimen Label

Do not breathe spray mist avoid skin and eye contact. Prevents contamination of food stuffs, eating utensils and drinking water.
