

Vela CR child-resistant trigger sprayer

The **Vela CR** child-resistant trigger sprayer is designed for spraying hazardous or aggressive products where child-safety is desired. Typical applications are insecticides, plant care, and acid or alkaline based cleaning products. The Vela CR is certified according to ISO 8317 and US CFR § 1700.20 standards.

The operation of the sprayer is simple for an adult, but very difficult for a child:

- 1) Press the safety button on the sprayer shroud and at the same time turn the nozzle anti-clockwise to the spray position.
- 2) It is now possible to spray, choosing between a fine mist and a direct jet by turning the nozzle.
- 3) After use, turn the nozzle clockwise to STOP, the security mechanism is automatically reset.

The Vela CR has a lock cap for secure fitting to 28mm/400 bottle necks with ratchet finish.

The Vela CR is an evolution of our mid-range Vela model with a high 1.3 ml output. It is a robust sprayer designed with user comfort in mind, with a rounded ergonomic shape and a wide trigger.
